

ABDULLAH ALL MOJAHID

Full-Stack Developer (MERN)

Bangladesh | +8801844797780 | abdullahallmojahidstudent@gmail.com

[Portfolio](#) | [GitHub](#) | [LinkedIn](#) | [CodeForces](#)

Professional Summary

Full-Stack Web Developer specializing in the MERN stack, with hands-on experience building responsive, secure, and scalable web applications. Currently pursuing a Diploma in Computer Science & Technology at Bangladesh Sweden Polytechnic Institute and bringing practical experience from a 3-month MERN Stack Web Development internship. Experienced in developing RESTful APIs, authentication systems, role-based access control, database-driven applications, responsive interfaces, and full-stack features using React.js, Node.js, Express.js, MongoDB, Firebase, and modern development tools. Strong foundation in C++, Data Structures & Algorithms, and competitive programming, with a Codeforces Specialist rating of 1579 and CodeChef 3★ rating of 1627 peak. Currently expanding expertise in TypeScript, Next.js, PostgreSQL, Prisma, Docker, and modern software architecture while continuously building real-world applications and improving software engineering practices.

PROFESSIONAL EXPERIENCE

MERN Stack Web Developer Intern

World Wise Scholars | Internship | [June 2026 – October 2026]

TECHNICAL SKILLS

- **Frontend:** HTML5, CSS3, Tailwind CSS, JavaScript (ES6+), React.js, Next.js
- **Backend:** Node.js, Express.js, RESTful APIs, API Integration
- **Database:** MongoDB, Mongoose, PostgreSQL
- **Authentication:** Firebase Authentication, JWT, OAuth, NextAuth.js
- **Programming Languages:** C, C++, Go, JavaScript, Java, Typescript, Python
- **Tools:** Git, GitHub, Postman, VS Code, Vercel, Netlify, Render
- **Core Concepts:** DSA, Authentication, Responsive Design, OOP, RDBMS
- **Currently Learning:** Next.js, TypeScript, Software Architecture

CORE PROFESSIONAL SKILLS

- Problem Solving & Analytical Thinking
- Full-Stack Web Development
- Team Collaboration & Technical Communication
- Debugging & Troubleshooting
- Time Management & Adaptability
- Self-Learning & Continuous Improvement
- Adaptability - Clean & Maintainable Code

Problem Solving & Competitive Programming

- Practicing DSA using C++ through competitive programming platforms.
- Codeforces Specialist — Peak Rating: 1579
- CodeChef 3★ — Peak Rating: 1627

PROJECT EXPERIENCE

1. BSPI BotForge (AI Community Platform) [Client Repo](#) | [Server Repo](#) | 12/2025-Present

- Designed and developed a full-stack platform for managing the BSPI developer community with secure role-based authentication and admin dashboard.
- Built student registration, approval workflow, member directory, profile management, and announcement system using REST APIs.
- Implemented Firebase Authentication, JWT authorization, email verification, and protected routes for students and administrators.
- Developed advanced search and filtering by department, skills, blood group, and academic information to improve member discovery.
- **Tech Stack:** React.js • Tailwind CSS • Node.js • Express.js • MongoDB • Firebase • JWT • Axios • Vercel • Render
- Supports student registration, member management, and administrative operations for the BSPI Student Community.

2. Zap Shift (Full-Stack Team Collaboration Platform) [Client Repo](#) | [Server Repo](#) 04/2026-Present

- Developed a full-stack productivity platform that enables teams to manage projects, tasks, and collaboration through a modern dashboard.
- Designed secure authentication, role-based access control, and RESTful APIs for efficient project and user management.
- Built responsive dashboards with reusable React components, real-time status updates, and optimized API communication.
- Focused on scalable backend architecture, clean code organization, and maintainable database design.
- **Tech Stack:** MERN (Mongo DB, Express JS, React JS, Node JS)
- Enables teams to efficiently manage projects, collaborate in real time, and improve workflow transparency through a secure, role-based platform.

ACHIEVEMENTS & CERTIFICATES

[National Hackathon](#) – IIUC, Chattagram | 2025

- Represented Bangladesh Sweden Polytechnic Institute in a national-level hackathon.
- Collaborated on a **MERN-based project** within a competitive 24-hour development environment.

- Gained practical experience in rapid prototyping, teamwork, problem solving, and product development.

[Robotics Club](#) – **BSPI Intra-Club Robotics Competition | 2025**

- Secured ****1st place**** in the BSPI Robotics Club Intra-Club Robotics Competition.
- Designed and developed an ****Arduino-based vehicle safety system**** using sensors for alcohol detection.
- Integrated hardware components with programming logic to develop a practical safety-focused prototype.

[ITBI Student Startup Pitch Fest 2026-CUET](#) | **Participant & Recognition**

- Presented **Orbix**, a technology-driven startup solution, at the ITBI Student Startup Pitch Fest hosted by CUET IT Business Incubator.
- Participated in the innovation and entrepreneurship program, gaining experience in product ideation, technical presentation, teamwork, and startup pitching.

EDUCATION & COURSES

Diploma in Computer Science Technology

Bangladesh Sweden Polytechnic Institute | 14/01/2024 – Present

Complete Web Development

Programming Hero (with Jhankar Mahbub) | Completed: 30/12/2024

CS Fundamentals Phitron | *Completed: 30/02/2026*
