

ABDULLAH ALL MOJAHID

Full-Stack Developer (MERN)

Bangladesh | +8801844797780 | abdullahallmojahidstudent@gmail.com

[Portfolio](#) | [GitHub](#) | [LinkedIn](#) | [CodeForces](#)

Professional Summary

Motivated Full-Stack Developer and CST diploma student with strong foundation in React, Node.js, and JavaScript. Currently improving problem-solving skills using C++ and Data Structures & Algorithms. Passionate about learning, building real-world projects, and growing into a professional software engineer.

PROFESSIONAL SKILLS

- Problem Solving
- Self Learning Ability
- Team Collaboration
- Time Management
- Communication
- Adaptability

TECHNICAL SKILLS

- **Frontend:** HTML5, CSS3, Tailwind CSS, JavaScript (ES6+), React.js
- **Backend:** Node.js, Express.js
- **Database:** MongoDB
- **Authentication:** Firebase Authentication, JWT
- **Programming Languages:** C, C++, Go, JavaScript
- **Tools:** Git, GitHub, Postman, VS Code, Vercel, Netlify, Render
- **Concepts:** REST API, Responsive UI Development, Authentication
- **Currently Learning:** Next.js, TypeScript, Software Architecture

Problem Solving & Competitive Programming

- Practicing DSA using C++ through competitive programming platforms.
- Familiar with Arrays, Strings, Recursion, Searching, Sorting, and Basic Graph concepts.
- Active on Codeforces (handle: Abdullah_all_Mojahid)

EDUCATION & COURSES

Diploma in Computer Science Technology

Bangladesh Sweden Polytechnic Institute | 01/2024 – Present

Complete Web Development

Programming Hero (with Jhankar Mahbub) | Completed: 30/12/2024

CS Fundamentals Phitron | 20/03/2025- Present

PROJECT EXPERIENCE

1. BSPI BotForge (AI Community Platform) [Client Repo](#) | [Server Repo](#) | 12/2025-Present

- Designed and developed a full-stack platform for managing the BSPI developer community with secure role-based authentication and admin dashboard.
 - Built student registration, approval workflow, member directory, profile management, and announcement system using REST APIs.
 - Implemented Firebase Authentication, JWT authorization, email verification, and protected routes for students and administrators.
 - Developed advanced search and filtering by department, skills, blood group, and academic information to improve member discovery.
 - **Tech Stack:** React.js • Tailwind CSS • Node.js • Express.js • MongoDB • Firebase • JWT • Axios • Vercel • Render
- Supports student registration, member management, and administrative operations for the BSPI Student Community.

2. Zap Shift (Full-Stack Team Collaboration Platform) [Client Repo](#) | [Server Repo](#) 04/2026-Present

- Developed a full-stack productivity platform that enables teams to manage projects, tasks, and collaboration through a modern dashboard.
 - Designed secure authentication, role-based access control, and RESTful APIs for efficient project and user management.
 - Built responsive dashboards with reusable React components, real-time status updates, and optimized API communication.
 - Focused on scalable backend architecture, clean code organization, and maintainable database design.
 - **Tech Stack:** MERN (Mongo DB, Express JS, React JS, Node JS)
- Enables teams to efficiently manage projects, collaborate in real time, and improve workflow transparency through a secure, role-based platform.

ACHIEVEMENTS & CERTIFICATES

[National Hackathon](#) | Participated

- Participated and received recognition (Project based on MERN stack in IIUC, Chittagong, in 2025)

[Robotics Club](#) – Intra Club Robotics Competition (2025) in BSPI

- First Position in Robotics Competition (Built a robot using sensors & Arduino for Alcohol Detection Safety System for Vehicles)

[ITBI Student Startup Pitch Fest 2026-CUET](#) | Participant & Recognition

- Presented Orbix, a technology-driven startup solution, at the ITBI Student Startup Pitch Fest hosted by CUET.
- Received recognition for participating in the innovation and entrepreneurship program.
